- 08 Offshore DP Sea Time Records
- 12 Shuttle Tanker Offshore Loading Operations (first version of logbook only)
- 13 FMEA/Annual Trials (first version of logbook only)
- 14 Statement of Suitability
- 15 Additional Training

ABOUT THIS GUIDE

The information contained in this document relates to the Dynamic Positioning Operator's Training Scheme only unless otherwise specified and is to be used in conjunction with the dark green coloured A5 (14.8cm x 21cm) size Nautical Institute DP Revalidation Logbook, which can only be used by NI certified DPOs who are completing revalidation or conversion applications.

Please note that there is more than one version of this logbook and the information and page layout may differ. Please make sure that you are referring to the correct information for the logbook that you hold. Owners of the original revalidation logbook will have sections for shuttle tanker revalidation and conversion. These were removed for later versions.

This guide is designed to assist you, as a revalidating or converting DPO, to complete your logbook correctly before applying to The Nautical Institute for your DP certificate. Please read this guide and the information contained in the logbook itself very carefully as failure to do so could result in errors that may cause your application to be rejected and returned to you as unsuccessful.

This guide is not to be used as a sole source of information for the rules pertaining to the revalidation and conversion of a DP Certificate. Although we try to include as much information as we can in our logbook guides their main purpose is to assist you in completing your logbook. Therefore it is to be used in conjunction with the document entitled Nautical Institute Certificate and Accreditation Standard, which is available to download from our website, as this contains comprehensive information on the Scheme.

There are multiple guides, FAQs and other information available on the schemes offered by The Nautical Institute via the *DP Help Page* on our website. To avoid confusion, please ensure you are reading the information specific to the DP certificate you are revalidating or are converting to.

DP CLASSED VESSELS

All DP sea time requirements mentioned in this guide refer to DP time where you performed as a DPO on board vessels officially certified with a DP class notation by a classification society, unless specified otherwise.

Unclassed vessel: means those with a D P capability but not classified or certified by a classification society. The Nautical Institute also considers DP class zero vessels under this definition.

DP SEA TIME DAY

The definition of DP time differs according to the type of DP Certificate you are revalidating or converting to.

For Offshore Scheme: The time is classed as DP sea time days. This is counted as a minimum of 2 hours per

day on DP. Days without DP on board the vessel cannot be used for revalidating or converting.

For Shuttle Tanker Scheme: Time on board the Shuttle Tanker vessel is counted as DP sea time and the Offshore Loading Operations which are done on DP are logged separately in the logbook.

APPLYING FOR A DP CERTIFICATE

The online application system is mandatory. Any documents received without first being properly registered and applied for through the online system, will be returned via normal post without processing.

Please note that a credit card, debit card or PayPal account is needed to complete the online application process.

Once you have applied online and successfully completed the payment, a PDF Checklist Template will be available in your DP online account on the My Account home page. Please download and print this form. Complete and sign it and include it with your application. If you are unable to find the document on your My Account home page, please contact the DP department.

Please read the FAQs on the Alexis Platform website for a list of documents required to successfully apply for your DP certificate.

DELIVERY OF DOCUMENTS

We solely work with our contracted couriers, DHL, to return documents. The fees for processing and the return of the documents are paid when completing the online application process.

We recommend that you send your logbook to us by courier/special delivery to avoid loss by standard post. The Nautical Institute assumes no responsibility for the loss/damage of logbooks/documents while in transit.

It is recommended that you make and keep a photocopy of your logbook before sending it to us.

Please visit our website for the courier fees which are applicable to all applications.

(UK and European Union countries are subject to an additional charge on the courier fee due to VAT, which is beyond The Nautical Institute's control).

REPLACEMENT DOCUMENTS

Please note that in the event of loss or damage, the issuance of replacement documents incur charges that can be found in the 'DP Credit Card Form' on our website.

To order replacement documents, please print and complete the duplicate document and credit card forms, which are available on our website (UK and European Union countries are subject to VAT).

USING THE LOGBOOK—ALL VERSIONS

Offshore DP Certificates options:

- 150 DP sea time days recorded in Section 2 of the Complete 120 DP sea time days on board a DP logbook dated within the five years previous to applying or
- Revalidation Course recorded in Section 1 or
- Simulator Course recorded in Section 1 of the logbook (under revalidation but marked as Simulator), and a minimum of 30 DP sea time days recorded in Section 2 of the logbook.

NOTE FOR REVALIDATION COURSE: If the participant is completing the course for the first time, there is no minimum DP sea time requirement. If the participant is completing the course for a second or subsequent time, a minimum of 30 DP sea time days will be required to revalidate. This DP time may be completed prior to or after the Revalidation Course. Where a participant subsequently revalidates after taking the course by completion of the full sea time requirement of 150 DP sea time days that participant can then take the Revalidation Course again without a DP sea time requirement.

Conversion from Shuttle Tanker to Offshore Certificate

• Complete 90 DP sea time days (active time and not on board a shuttle tanker) recorded in Section 2 of the logbook followed by a new Statement of Suitability recorded in Section 3/4 within the four years previous to applying.

NOTE: The type of DP Certificate issued will depend upon the class of the vessel the DP sea time days were completed on.

Revalidation of Unclassed, Limited and Unlimited Conversion from Unclassed to Limited/Unlimited Certificates

classed vessel (DP 1, 2 or 3) recorded in Section 2 of the logbook, completion of a new task section (available on the Alexis Platform website) followed by a new Statement of Suitability recorded in Section 3/4.

NOTE: The type of DP Certificate issued will depend upon the class of the vessel the DP sea time days were completed on.

Upgrading from Limited to Unlimited Offshore DP Certificate

 Complete 60 DP sea time days on board a DP2 or 3 classed vessel recorded in Section 2 of the logbook and followed by a Statement of Suitability recorded in Section 3/4, after the issuance date of the DP Limited Certificate

Further information can be found in the Nautical Institute Certificate and Accreditation Standard. available on our website.

INTRODUCTION (cont'd)

USING THE LOGBOOK (CONT'D) —FIRST VERSIONS ONLY

Revalidation of Shuttle Tanker DP Certificates or Conversion from Offshore to Shuttle Tanker Certificate both follow the same route:

- 18 offshore loading operations and one set of annual trials (or FMEA) recorded in Section 3 of the logbook within the five years previous to applying or
- If less than 18 offshore loading operations but more than six, within the past five years complete Course B, followed by Phases 3 and 4 of the Shuttle Tanker Scheme **or**
- If fewer than six offshore loading operations have been conducted in the five year period, restart the Shuttle Tanker Scheme process at Phase 2 and complete all subsequent phases. Due to conversion, 24 days sea time can be deducted from the requirements of Phase 2, but all offshore loading operations in Pathway A or B must be completed.

Where these revalidation requirements specify participation in annual trials or a FMEA test within a five-year period, in exceptional circumstances this requirement may be fulfilled by participation in an additional Simulator Course (such as Offshore Loading Phase 3) in lieu of the trials, completed during this fiveyear period.

PERSONAL DETAILS

PHOTOGRAPH

You will need to add a 35mm x 45mm size photograph of yourself taken within the last six months into the 'Your Details' page of the logbook.

COMPLETING THE FORM

The details on this page should be written clearly by in **BLOCK CAPITALS**.

Λ	It is very important that you take care to ensure that your name is typed
/ ; /	correctly. The Nautical Institute
	assumes no responsibility for spelling
errors a	nd a fee may be charged for reprinting
docum	ents.

ONLINE APPLICATION TIPS

Please check your account to ensure your name is entered on the Alexis Platform using the correct capitalisation, e.g.

× JOE ADAM BLOGGS

- × joe adam blogs
- ✓ Joe Adam Bloggs

Note: Please ensure that if you have any special characters in your name that these are inputted correctly. Do not use block capitals to complete online applications .

REVALIDATION COURSE

COMPLETING THE REVALIDATION COURSE

This page will be completed by the training centre instructor once you successfully complete your DP Revalidation Course.

Please check this page has been signed, dated, stamped and that the certificate number has been added. Contact the relevant training centre if any of the items have not been completed or are incorrect.

The DP Revalidation Course may be completed up to six months before the revalidation date set by the NI. The course will be valid for a period of 12 months only, in which the DPO must send in an application into the NI.

The Course Certificate No is the same number that will appear on the course certificate issued to you by the training centre. This number must be completed by the training centre.

If the DP Simulator Course has been repeated as part of the revalidation requirements, this can be entered on this page. The training centre should mark the course DP Simulator and cross out the word revalidation.

OFFSHORE DP SEA TIME RECORDS V1

PAGE LAYOUT

The layout of the page will depend on the version of the logbook that you hold.

Please make sure that you are checking that the picture on this page reflects the page that you have in your logbook.

INSUFFICIENT SPACE

Each page has enough space for 15 individual DP sea time entries. If you complete more DP days on a trip than the page allows, please continue on a new page and write 'continued' at the top of the page. Please note that all the details at the top of the page must be completed for the continuation page and the bottom of each page must also be completed and signed by the Master of the vessel.

ACTIVE AND PASSIVE DP SEA TIME

When converting from an Unclassed DP Certificate to a Limited/Unlimited DP Certificate, a maximum of 25% of the DP sea time days can be passive DP time. The rest must be active time.

When converting from a Shuttle Tanker DP Certificate to an Offshore DP Certificate, the required 90 DP sea time days must be active DP time.

1 VESSEL DETAILS

The first table on the sea time record page is to record the ship details and DP equipment on board. All details must be fully and correctly completed.

2 RANK

This must include both your DP and non DP rank, and also the country you and the vessel were located in at the time the DP sea time was completed.

3 PERIOD ON BOARD

This is where the 'Start' and 'End' dates of your **trip** must be entered.

DP sea time dates entered outside of the 'from' and 'to' dates will not be counted. Entries without 'from' and 'to' dates will not be counted towards your application.

OFFSHORE DP SEA TIME RECORDS V1 (cont'd)

PAGE LAYOUT

The layout of the page will depend on the version of the logbook that you hold.

Please make sure that you are checking that the picture on this page reflects the page that you have in your logbook.

4 DP SEA TIME TABLE

This table is to enter your actual days on <u>DP</u> only. Each day on DP must be entered individually, using a separate line for each day as shown. DP time <u>cannot</u> be entered in blocked date ranges (e.g. 17/01/15—20/01/15). Dates written in this format will not be counted even if each of those days were on DP.

DP sea time entries without the Master's signature will not be counted towards the time required to revalidate or convert a DP Certificate.

Unused spaces should be crossed out by the Master.

5 MASTER'S DETAILS

The Master must only complete this section once all of the DP sea time for the trip has been completed and the unused space crossed out. This is so no additional entries can be added.

CORRECTING ERRORS

The use of correction fluid is not permitted. If a mistake is made recording DP sea time entries, the Master must cross out the line containing the incorrect entry and enter the correct data on the line below as in example 1 below. Errors found after additional sea time entries have been made below any incorrect ones can also be corrected as in example 1 but in this case the correct data needs to be added in the next available space below.

Entries amended with correction fluid or overwritten will not be counted towards the time required to qualify for a DP Offshore certificate.

001111001101	15/02/15	d.	Þ	ALL	\mathcal{O}
Example 1	14/02/15	4	4	Au	121
	17/0/11/	T		(17)	Le V

NOTE TO ALL DPOS

It is advised that you fully check all of the entries on the page are correct while both you and the Master are still on board the vessel so that any errors/omissions

can be easily rectified before application.

OFFSHORE DP SEA TIME RECORDS V2(cont'd)

Offshore DP sea time records

OFFSHORE DP SEA TIME RECORDS V2(cont'd)

PAGE LAYOUT

The layout of the page will depend on the version of the logbook that you hold.

Please make sure that you are checking that the picture on this page reflects the page that you have in your logbook.

4 DP SEA TIME TABLE

This table is to enter your actual days on DP. Only DP sea time days can be entered here but they are able to be grouped into date ranges (e.g. 09/01/16—12/01/16).

DP sea time entries without the Master's signature will not be counted towards the time required to revalidate or convert a DP Certificate.

Unused spaces should be crossed out by the Master.

5 MASTER'S DETAILS

The Master must only complete this section once all of the DP sea time for the trip has been completed and the unused space crossed out. This is so no additional entries can be added.

CORRECTING ERRORS

The use of correction fluid is not permitted. If a mistake is made recording DP sea time entries, the Master must cross out the line containing the incorrect entry and enter the correct data on the line below as in example 1 below. Errors found after additional sea time entries have been made below any incorrect ones can also be corrected as in example 1 but in this case the correct data needs to be added in the next available space below.

Entries amended with correction fluid or overwritten will not be counted towards the time required to qualify for a DP Offshore certificate.

	15/02/15	<i>d</i> .	Þ	ALL	\mathcal{O}
Example 1	14/02/15	4	Þ	Au	121
	17/0/11/	T		(17)	Le V

NOTE TO ALL DPOS

It is advised that you fully check all of the entries on the page are correct while both you and the Master are still

on board the vessel so that any errors/omissions can be easily rectified before application.

SHUTTLE TANKER OFFSHORE LOADINGS

PAGE LAYOUT

The guidance on this page is only for those holding the first version of the revalidation logbook which has room for shuttle tanker offshore loading operations.

1 VESSEL DETAILS

The first section on the sea time record is to record the ship details and DP equipment on board. All details must be fully and correctly completed.

2 RANK

This must include both your DP and non DP rank.

3 SEA TIME DATES

This is where the 'Start' and 'End' dates of your **trip** must be entered.

Offshore Loading operation dates entered outside of the Date joined and Date left will not be counted. Entries without both a Date joined and a Date left will not be counted towards the application.

4 OFFSHORE LOADING OPERATIONS TABLE

This table is to enter details of your offshore loading operations. The activity code, location and date must all be completed for each entry. Activity codes can be found on page 6 of your DP Revalidation logbook.

Incomplete or unused lines must be crossed out by the Master.

5 MASTER AND VESSEL DETAILS

The Master must only complete this section once all of the sea time and offshore loading operations for the trip has been completed.

Sea time entries without the Master's signature and vessel stamp will not be counted towards the time required to gain a Restricted Shuttle Tanker DP certificate or revalidate.

6 SHIP STAMP AND MASTER

The ship stamp should be stamped here.

SHUTTLE TANKER FMEA/ANNUAL TRIALS

PAGE LAYOUT

The guidance on this page is only for those holding the first version of the revalidation logbook which contained a section for conversion FMEA or annual trials.

1 VESSEL DETAILS

Please tick to confirm if the record is for an FMEA or an annual trial.

2 VESSEL AND ASSESSOR DETAILS

The vessel, assessor and date joined and left details should be completed here.

3 FMEA/ANNUAL TRIAL DETAILS

The FMEA or annual trial details need to be added so that the record shows the location and dates commenced and completed. Any other details can also be added here.

4 MASTER AND VESSEL DETAILS

The Master must only complete this section once the annual trial or FMEA has been completed.

Sea time entries without the Master's signature and vessel stamp will not be counted towards the time required to gain a Restricted Shuttle Tanker DP certificate or revalidate.

5 ADDITONAL RECORD SPACE

There is room for a second Annual Trial, or FMEA on the bottom half of the page.

STATEMENT OF SUITABILITY

The Statement of Suitability is very important and one of the main reasons why applications for DP certificates are rejected due to forms being incorrectly filled in or not completed at all.

The Statement of Suitability must be signed off and stamped by the Master of the <u>last</u> vessel recorded in your logbook before applying to The Nautical Institute to convert a DP Certificate. You must also provide a confirmation letter that verifies this DP entry.

Please ensure that the form is only completed by the Master <u>after</u> you have taken all of the courses and acquired ALL of the DP sea time required to convert to the type of DP Certificate you wish to obtain. Only DP sea time dated on or before the date of your Statement of Suitability can be used towards your required time needed for a DP Certificate. If you wish to include additional DP sea time in your application that is dated after your Statement of Suitability you will need to have a new form completed that complies with the requirements.

1 AND 3 MASTER'S DETAILS

The Master must write their name clearly in BLOCK CAPITALS at the top of the form and sign, date and add their CoC/DP certificate number details lower down in the spaces provided.

If the Master is the converting DPO a separate certificated DPO on board must complete and

sign the form in the spaces indicated where the Master of the vessel should sign.

The converting DPO/Master must then sign and complete the form in the spaces provided for the logbook holder's details.

2 LOGBOOK HOLDER'S NAME

Your name must be written here.

4 COUNTERSIGNATURE OF SENIOR DPO

If the Master signing the Statement of Suitability does not hold a valid DP certificate, the form must be countersigned and dated by the certified DPO in charge. The DPO should also write their DP certificate number in the space provided and write their name in BLOCK CAPITALS on the same line as their signature.

5 LOGBOOK HOLDER'S DETAILS

Your signature, current CoC number and the country the CoC was issued in must be completed here. Please ensure that your signature here matches the one on your PDF and CoC.

6 SHIP STAMP AND MASTER

The ship stamp and the Master's name and signature must match the last sea time entry in the logbook.

The monotation contained new sites and or which a cerimicate to protective with de sisted. The Monotation Institute takes a serious view of tasks information being submitted, or tasks endorsement by Competent Officer/Master. The pandity for doing so can lead to suspension or cancellation of a DP certificate for up to five years. The Nautical Institute reserves the right to take further action if applicable. Verification may be sought on any information contained in this document.

On completion of the relevant sections, a DP Operator's Certificate will be issued by The Nautical Institute. The operator should apply online and then forward the logbook to: The DP Department, The Nautical Institute, 202 Lambeth Road, London SET JG, UK

This page can be used to take note of any courses or training that has been done. It allows you to keep a record of training together with the dates that they were completed.

ADDITIONAL TRAINING (CONT'D)

This page can be used to take note of any DP Manoeuvres that are completed. It allows you to keep a record of manoeuvres together with the dates that they were completed.
