COMPLETING THE SCHEME

What do I need to complete in order to apply for my Shuttle Tanker Restricted certificate?

You need to complete the following:

- Participation and record of at least 18 offshore loading operations and one set of annual trials (or FMEA) within a five-year period.
- If less than 18 offshore loading operations but more than 6, re-start the training process again at level 9, but specify training course B prior to the 24 days time on board the shuttle tanker.
- If less than 6 offshore loading operations in the five-year period, the DPO should re-start the above process at the Simulator course (Phase 3)
- Where these revalidation requirements specify participation in annual trials or a FMEA test within a five-year period, in exceptional circumstances this requirement may be fulfilled by participation in an additional simulator course (such as Offshore Loading Ph3) in lieu of the trials, completed during this five-year period.

Can I use time from before my Unclassed certificate was issued towards my Shuttle Tanker certificate?

No. All time and offshore loading operations to be used for the conversion must be completed after the issuance of the Unclassed certificate.

Who needs to sign off my DP sea time?

Your DP sea time must be signed off by the Master of the vessel. Each recorded DP sea time entry must also be initialled individually by the same Master whose details and signature appears at the bottom of each page. Entries that have not been signed cannot be counted towards the required sea time and offshore loading operations.

Can I reduce the amount of actual sea time that I need?

No. The mandatory amount of offshore loading operations must be completed in order to convert to a Shuttle Tanker certificate.

Can I use time not recorded in my logbook?

No. All DP sea time and offshore loading operations to be used in the application must be recorded in your NI logbook. If you are converting but hold an old style blue/green or black logbook please contact the NI to purchase the Shuttle Tanker logbook. Any time used in the application which is not logged in the NI logbook will not be counted towards the certificate and may result in your application being rejected. Please see our [website](#) for more information on new logbook purchases.

I have an entry in my logbook that has not been signed. What should I do?

You need to contact the master of the vessel from that time period in order to have the entry signed. Any entries in the logbook which are missing the signature or ship stamp will not be counted towards the application.

Is the confirmation letter for Shuttle Tanker scheme different to the Offshore scheme?

Yes. When the company is confirming the DP time collected for the initial or conversion of a Shuttle Tanker certificate there is a different [template](#) available on our website. This is because the DP time is counted differently to the original Offshore scheme. In the Shuttle Tanker scheme, the company need to confirm the offshore loading operations completed as these count towards the certificate.

My company won't provide a confirmation letter. What should I do?

Unfortunately all sea time being claimed for an application does need to be confirmed on a letter from the company. Any time which does not have a confirmation letter cannot be used. If you are unable to obtain this letter, the DP sea time will need to be redone.

Can I use correction fluid (white-out) to amend dates in my logbook?

No. Any dates that have been altered with correction fluid may automatically make your application unsuccessful. If there is a simple mistake, please put a line through and have the correct information entered. Please then have the Master sign next to the correction so that it shows he is aware of it.

If you are not sure, please check our logbook guides which are available on our website. Please contact the DP department (dp@nautinst.org) for any further clarification if needed before sending your documents in.

APPLICATION PROCESSING

Can I accrue DP time whilst my logbook is at the NI offices?

No. Only time whilst you are in possession of your logbook can be claimed.

Will my certificate have a validity date?

Yes. The Nautical Institute now issues a validity date on all certificates. The certificate will be valid for a period of five years. At the end of the five years, you will need to revalidate this certificate. Please ensure that during the five years, you are logging your DP time ready to use for revalidation.

Can you send me a copy of my certificate before it is sent out?

It is The Nautical Institute's policy not to forward copies of issued certificates to DPOs. Once the certificate is printed, it will be despatched back to the address on the application.

Why can't I have my documents sent back to a Russian/Chinese home address?

This is a requirement from our couriers. They are unable to deliver to Russian/Chinese home addresses. Please ensure that you enter either a Russian/Chinese company address, or a home address other than Russia/China. Please also provide the company registration number for the return address. This will stop any delays when sending your documents back to you.

Please note that all deliveries to Crimea have also been stopped by our courier.

Why can't I have my documents sent back to a PO Box address?

Our courier requires a signature on delivery which is why the delivery address cannot be a PO Box address. There must be someone physically at the address to sign for the documents. If you are going to sea and there will be no one at home, please ensure that you provide an alternative address that we can send your documents to.
